RAW GATOR MEAT

Gator meat is a lean meat with a mild flavor and firm texture that is easily enhanced by seasonings, sauces, or marinades. The tail meat is considered a choice cut and is often used in baked, fried, or cutlet recipes. Body and leg meat can also be used with proper preparation, such as marinating or tenderizing. Gator meat can be cooked using various methods, including searing, pan-frying, deep-frying, grilling, or simmering in sauces.
