

WHOLE CLAMS

Oyster Bay Clams are responsibly farm raised in natural ocean-side sand beds, where nutrient-rich waters help develop their clean, sweet flavor. Harvested at peak maturity, each clam is fully cooked, cleaned, and purged before freezing to ensure consistent quality, texture, and flavor. The result is a convenient, labor-saving product with virtually no waste, eliminating the challenges of handling live shellfish while giving operators an easy way to serve premium clam dishes with confidence.
